NCLEX® Administration Accommodations Due to A Disability
INFORMATION SHEET

The Board of Registration in Nursing (Board) insures protection of qualified applicants with disabilities in the administration of the National Council Licensure Examination (NCLEX) under Title II (Public Entities), Americans With Disabilities Act (ADA). The Board will evaluate all requests for examination modifications to determine whether the applicant: 1) has a disability, as defined by the ADA, and 2) are qualified for protection under Title II. The qualified NCLEX applicant with a disability must be able to meet the essential eligibility requirements for licensure as a Registered Nurse or Licensed Practical Nurse in the Massachusetts. These requirements, as specified in Massachusetts General Law Chapter 112, ss. 74 and 74A, include graduation from a Board-approved nursing education program, achievement of a pass grade on the NCLEX, and demonstration of compliance with the good moral character licensure requirement.

The Board will recommend approval of reasonable examination modifications to the National Council of State Boards of Nursing (NCSBN) for qualified applicants. Such modifications must maintain the psychometric nature and security of the NCLEX. Exam modifications, which fundamentally alter the nature or security of the NCLEX, are not permitted. Recommendations for approval will be made by Board staff in accordance the policies and procedures established by the NCSBN.

It is the expectation of the Board that all NCLEX applicants will be knowledgeable with regard to the examination and licensure requirements, and that qualified NCLEX applicants with a disability will submit all documentation related to the accommodations application as required.

All correspondence should be addressed to Nursing Education Coordinator, Board of Registration in Nursing, 239 Causeway Street, Suite 500, 5th Floor, Boston, MA 02114. Please do not mail your Accommodation Request Form with your application to Professional Credentialing Services (PCS). Questions regarding the modification request process should be directed to the Nursing Education Coordinator, Board of Registration in Nursing, at the address above.

Please be sure to indicate on your Application for Initial Licensure as a Nurse by Examination Application (page 1) that you are requesting accommodations by checking the box “Check here only if requesting NCLEX® Accommodations.”

Accommodation requests may be submitted eight (8) weeks prior to graduation.

Rev: 2/98, 1/99, 1/00, 6/01, 2/02, 7/03, 5/05, 9/09, 2/12, 1/13
Purpose:
This guideline is designed to inform qualified NCLEX applicants with disabilities of the appropriate information and documentation required to validate a disability and the applicant’s current need for testing accommodation. Information and documentation to validate a disability and the applicant’s current need for testing accommodation must be reported by a qualified diagnostician with expertise to diagnose and treat the disability, and include:

1. Professionally recognized diagnosis (e.g. avoid “suggests” or “is indicative of”) and describe how the disability substantially limits one or more major life activities, including its impact in the context of writing the NCLEX.

**Important Notes:**
- Psychiatric/mental health disorders, including anxiety/panic disorder and hyperactive disorder, must cite specific Diagnostic and Statistical Manual (DSM) recognized diagnoses.
- English as a second language is not recognized for protection under the ADA.

2. Description of applicant’s current level of functioning, current relevant treatment and specific request for accommodations.

3. Specific evidence to validate diagnosis, as demonstrated by medical evaluation or comprehensive assessment battery, including:
   a) diagnostic interview addressing history of disability, any past accommodation granted and a description of its impact on the individual’s functioning;
   b) specific standardized and professionally recognized tests/assessments administered, including assessment of aptitude, academic achievement, and information processing (e.g. Woodcock-Johnson, Weschler Adult Intelligence Scale), if applicable; and
   c) standard test scores and/or percentiles and interpretations and evaluations.

**Important Note:**
- An Individual Education Plan (IEP) is not sufficient documentation.

4. Specify recommendations for accommodations with stated rationale as to why the recommended accommodation is necessary and appropriate.

5. Report must be submitted on letterhead and include the diagnostician’s name, title and professional credentials. It must be typed, dated, and signed by the diagnostician.
