IMPORTANT INFORMATION:

A Professional Engineer registered in his or her own state under equivalent qualifications may be given a permit to practice in Massachusetts for 30 days in each calendar year. If the applicant has a pending application for registration in Massachusetts he or she may be given a permit valid until the Board acts on the permanent license application and is approved by the Board. Your application for licensure must accompany this temporary permit application.

Please be advised that applicants who are residents or have a business address in the state of Massachusetts cannot obtain a temporary permit.

Please submit a copy of your current pocket size license/registration as a Professional Engineer along with this form.

The Board requests that you obtain a copy of the Massachusetts Code of Regulations 250 CMR from our State Book Store. Telephone number 617-727-2834 or from our web site at:
WWW.State.MA.US/REG

At its regular meeting held on May 20, 1994, The Board of Registration of Professional Engineers and Land Surveyors voted to offer the following statement relative to the issuance of Temporary Permits for Practice of Engineering or Surveying in the Commonwealth of Massachusetts.

“The Board will, upon receipt of an application and documentation issue to individuals registered in another jurisdiction a Temporary Permit for appropriate practice within the Commonwealth. The Temporary Permit shall be valid for 30 days, unless the individual has filed an application for registration, a condition under which the Temporary Permit shall be valid until the Board acts upon the application for permanent registration.

The Board does not have jurisdiction over the action of a municipal Building Inspector. While licensing statutes and regulations allow Registered Professional Engineers to practice in other areas of competency than that of record, it is assumed that an Inspector has the authority to require proof of competence of licensed individuals submitting designs to the municipality. The demonstration of competency may take the form of a:

- Massachusetts seal with the discipline included thereon.
- Massachusetts seal with the discipline added by hand, beneath the seal.
- Seal from a different jurisdiction with a statement by the licensee concerning the Massachusetts Temporary Permit issued, and an explanation of the discipline of the individual’s jurisdictional registration.
- Decision from the Board that the individual is competent to practice within the discipline(s) shown.”

The Board of Registration of Professional
Engineers and Land Surveyors.
